

Installation Instructions

Demonstration

If you're a licensed user, you need to do the Customer Login before downloading the installation instructions, so that you get the installation instructions tailored to your site.

The following instructions apply to installing the demonstration version of the system.

1. Using Internet Explorer or equivalent, go on to the web site www.fultonsoftware.com.
2. Click on *Downloads*.
3. Click on *Prerequisite Software*.
4. Click *Run*, and go through the prompts to install that software.
5. Back on the *Downloads* page, click on *FSUMS Software*.
6. Click *Run*, and go through the prompts to install the FSUMS software.
7. Double-click the *Members* icon on the desktop to run the software. Note: Vista users will probably need to run the program as Administrator.
